

A different view of the world

On the 9th of June 2017 I graduated from the Ruud Wackers art school in Amsterdam. My subject was collages. By painting and drawing collages I want to show how the world affects us. I start by selecting parts of photos from magazines, and then make a composition which is led by an interaction of ratio and emotion. The paper drafts are the foundation for the painted or drawn collages. The collages are made on canvas or paper with oil paint or charcoal

Sometimes it is difficult to describe one's feelings. Looking at a painting is a personal experience.

Before I started at the Ruud Wackers art school, I did sculpturing in Haarlem.
